Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description OF Shacman Tractor Truck:

A tractor used to pull and push heavy trailers. It is equipped with a high-power diesel engine of more than 294kw, a high-speed transmission device and a final reducer. There are also wheel reduction gears to reduce speed and increase traction.

Shaanxi Automobile tractors are more efficient, economical, safe, comfortable and intelligently connected.

High efficiency, low fuel consumption, smart and comfortable, matched with 10L, 11L, 12L, 13L engines, four-point airbag shock absorption, Grammer air seats, double seals and other noise reduction designs.

The main welding automation rate is 100%. The body is automatically welded by robots from the world's top ABB company.

The welding precision is high, the solder points are evenly distributed, and there is no de-soldering or false soldering. It can ensure that there will be no welding deformation and impact resistance in harsh environments.

Aluminum three-level pedals with pedal lights and anti-slip protection.

Product Application OF Shacman Tractor Truck :

The Container Tractor Truck's cab top has undergone strict pressure resistance test, with excellent safety performance and better guarantee in product quality. Its thickened cab steel plate and side door crash beam design effectively enhance the passive safety of the cab. This tractor truck can meet basic transportation needs and tackle some complicated tasks.
