Product Description

Company Profile

Zhengzhou Hongyang Automobile Sales Company is honored to be Shaanxi Automobile's authorized dealer for both domestic and international markets. We are also privileged to be Shaanxi Automobile's strategic cooperative dealer within China. With a longstanding partnership of over a decade, Zhengzhou Hongyang operates four prominent 4S display stores across Henan, strategically located in Zhengzhou, Shangqiu, Hebi, and Nanyang.

Product Description of Shacman Tractor Truck

The SHACMAN tractor is engineered for robust towing and pushing of heavy trailers, featuring a high-power diesel engine and available in models with either mechanical or hydraulic transmissions that offer a high-speed ratio and main reducer. Some models include wheel-side reduction devices to enhance traction control.

Compared to competitors, SHACMAN tractors excel in efficiency, safety, comfort, and advanced network integration. They boast high efficiency and low fuel consumption, with engine options ranging from 10L to 13L. The cabins are equipped with four-point airbag shock absorption, Grammer air seats, and noise reduction technologies including double seals.

Manufactured with meticulous precision, the vehicle bodies undergo 100% automated robotic welding by ABB systems, ensuring precise welds and uniform joints. This guarantees exceptional structural integrity and impact resistance, even in challenging conditions.

Additionally, SHACMAN tractors feature aluminum alloy three-stage pedals with pedal lights and slip-protection for added safety and convenience. The use of polyester materials in the cabin significantly reduces noise levels and improves insulation, creating a quieter and more comfortable environment for operators.

Product Application of Shacman Tractor Truck :

The cab roof of the Container Tractor Truck has been subjected to rigorous pressure resistance testing, showcasing outstanding safety performance and ensuring superior product quality. Reinforced with thicker cab steel plates and side door crash beams, it greatly enhances passive safety within the cab. This truck is ideally suited for essential transportation needs and excels in tackling demanding tasks.
