Product Description of Shacman Tractor Truck:

The SHACMAN tractor is designed for towing and pushing heavy trailers, featuring a robust diesel engine and equipped with either mechanical or hydraulic transmission, offering a high-speed ratio and main reducer. Some models also include wheel side reduction devices for enhanced traction control.

Compared to competitors, SHACMAN tractors excel in efficiency, safety, comfort, and intelligent network integration. They feature high efficiency, low fuel consumption, and intelligent design, with engine options ranging from 10L to 13L. The cabins are equipped with four-point airbag shock absorption, Grammer air seats, and advanced noise reduction technology.

Manufactured with precision, the vehicle bodies are robotically welded by ABB, ensuring a 100% automation rate with precise welding and even distribution of solder joints. This process guarantees structural integrity and impact resistance in harsh environments.

Additionally, SHACMAN tractors feature aluminum alloy three-stage pedals with pedal lights and slip protection. The use of polyester materials in the cabin significantly reduces noise and improves insulation.

Product Application of Shacman Tractor Truck :

The Container Tractor Truck's cab top has undergone strict pressure resistance test, with excellent safety performance and better guarantee in product quality. Its thickened cab steel plate and side door crash beam design effectively enhance the passive safety of the cab. This tractor truck can meet basic transportation needs and tackle some complicated tasks.
