#### Product Description of Shacman Tractor Truck:

6x4 Container Tractor Truck is the general large truck or semi-trailer that is pulled by tools between the front end and the car box. It is often used for the transportation of large quantities of goods within or between workshops, such as the transportation from the warehouse to the assembly line in the automobile manufacturing industry and the baggage transportation at the airport. The braking system of the tractor truck is basically the same as the braking system of the truck, the difference is that the tractor is set up to deliver compressed air to the trailer pneumatic brake line, emergency brake line, start control line and air hose connector, etc.

#### Product Application of Shacman Tractor Truck :

The Container Tractor Truck's cab top has undergone strict pressure resistance test, with excellent safety performance and better guarantee in product quality. Its thickened cab steel plate and side door crash beam design effectively enhance the passive safety of the cab. This tractor truck can meet basic transportation needs and tackle some complicated tasks.
