Product Description O Shacman Tractor Truck:

A tractor used for towing and pushing heavy trailers. It is equipped with a high-power diesel engine, and is equipped with a mechanical or hydraulic transmission with a high speed ratio and a main reducer. Some also have wheel side reduction devices to reduce speed and increase traction.

Compared with other tractors, SHACMAN tractors are more efficient economy,safety,comfort and intelligent network federation.

High efficiency, low fuel consumption, intelligent, comfortable, matching 10L,11L,12L,13L engine, four-point airbag shock absorption, grammer air seat, double seal and other noise reduction design.

The vehicle body is automatically welded by robots from the world's top ABB company. The main welding automation rate is 100%. The welding accuracy is high, the solder joints are distributed evenly, and there is no phenomenon such as de-soldering and false welding. It can ensure that there will be no open welding deformation under harsh environments and impact resistance.

Aluminum alloy three stage pedal equipped with pedal lights and slip-protection.

Application of polyester material can reduce cab noise greatly and increase insulation qualities.

Product Application OF Shacman Tractor Truck :

The SHACMAN tractor excels in robust towing and pushing of heavy trailers, powered by a high-capacity diesel engine and available with mechanical or hydraulic transmissions featuring high-speed ratios and main reducers. Some models also include wheel-side reduction devices for enhanced traction control.

Compared to competitors, SHACMAN tractors lead in efficiency, safety, comfort, and advanced network integration. They feature high efficiency and low fuel consumption, with engine choices ranging from 10L to 13L. Inside the cabin, operators benefit from four-point airbag shock absorption, Grammer air seats, and noise reduction technologies such as double seals. Manufactured with precision, SHACMAN tractors undergo 100% automated robotic welding by ABB systems, ensuring precise welds and uniform joints for exceptional structural integrity and impact resistance, even in challenging environments.

Additionally, SHACMAN tractors are equipped with practical features like aluminum alloy three-stage pedals with pedal lights and slip-protection for enhanced safety and convenience. The use of polyester materials in the cabin significantly reduces noise levels and improves insulation, providing a quieter and more comfortable environment for operators.
