

Top Choice Reliable Diesel left Driving EURO Shacman X5000 4x2 6x4 Tractor

Our Product Introduction

for more products please visit us on chinadumptrucks.com

Basic Information

- Place of Origin: China
- Brand Name: Shacman
- Model Number: X5000
- Minimum Order Quantity: 1
- Price: \$38,000.00/units >=1 units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥100 units

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: Euro -
- Segement: Heavy Truck
- Market Segement: Logistics Transportation
- Engine Brand: WEICHAI
- Fuel Type: Diesel
- Engine Capacity: > 8L
- Cylinders: 6
- Gear Box Brand: FAST
- Transmission Type: Manual
- Maximum Torque(Nm): 1500-2000Nm
- Size: 6500*2500*3200
- Gross Vehicle Weight: 25000 Kg

Product Description

Zhengzhou Hongyang Automobile Sales Company is Shaanxi Automobile's overseas & domestic authorized dealer, and we are also Shaanxi Automobile's domestic strategic cooperative dealer. Zhengzhou Hongyang has cooperated with Shaanxi Automobile for 11 years. There are four 4S display stores in Henan, respectively in Zhengzhou, Shangqiu, Hebi and Nanyang. The annual sales volume of Hongyang Automobile in central China exceeds 1,500 units. We have Weichai Power Center Warehouse covering the entire Henan Province, supplying Weichai engines and all accessories. Shacman Automobile was established in 1986 and is the only designated vehicle for the Chinese army. It is mainly used to transport military supplies, missiles and satellites.

Product Description of Shacman Tractor Truck:

The SHACMAN Tractor Truck is a premier choice for heavy-duty towing and pushing of large trailers. Designed with a high-capacity diesel engine, this tractor truck provides unparalleled power and efficiency. Available in both mechanical and hydraulic transmission options, it features high-speed ratios and main reducers to handle the most demanding tasks. Select models are equipped with wheel-side reduction devices, enhancing traction control and performance.

Key Features:

Powerful Engine Options: Choose from engines ranging from 10L to 13L, all designed for high efficiency and low fuel consumption.

Advanced Transmission: Both mechanical and hydraulic transmission options offer high-speed ratios and main reducers for optimal performance.

Enhanced Traction Control: Wheel-side reduction devices are available on certain models, providing superior control and stability.

Efficiency and Safety:

Fuel Efficiency: SHACMAN tractors are engineered for high efficiency and low fuel consumption, making them cost-effective for long-term use.

Safety Features: Aluminum alloy three-stage pedals with pedal lights and slip-protection enhance safety and convenience for operators.

Operator Comfort:

Comfortable Cabin: The cabin features four-point airbag shock absorption, Grammer air seats, and advanced noise reduction technologies, including double seals.

Quiet Environment: The use of polyester materials significantly reduces noise levels and improves insulation, ensuring a quieter and more comfortable ride.

Manufacturing Excellence:

Precision Welding: 100% automated robotic welding by ABB systems ensures precise welds and uniform joints, providing exceptional structural integrity and impact resistance.

Durability: Designed to withstand challenging environments, SHACMAN tractors maintain their structural integrity under the toughest conditions.

Additional Features:

Safety and Convenience: Aluminum alloy three-stage pedals with pedal lights and slip-protection enhance safety and operator convenience.

Noise Reduction: The use of polyester materials in the cabin significantly reduces noise levels and improves insulation.

The SHACMAN Tractor Truck is an ideal solution for those seeking a powerful, efficient, and comfortable heavy-duty vehicle. Its advanced features and robust construction make it a leader in the industry, providing exceptional performance and reliability in every operation.

Product Application of Shacman Tractor Truck :

The SHACMAN tractor stands out for its robust towing and pushing capabilities, powered by a high-capacity diesel engine. It offers both mechanical and hydraulic transmissions with high-speed ratios and main reducers. Some models are equipped with wheel-side reduction devices for improved traction control.

SHACMAN tractors surpass competitors in efficiency, safety, comfort, and advanced network integration. They boast high efficiency and low fuel consumption, with engine options ranging from 10L to 13L. The cabins are designed with operator comfort in mind, featuring four-point airbag shock absorption, Grammer air seats, and noise reduction technologies such as double seals.

Manufactured with precision, SHACMAN tractors utilize 100% automated robotic welding by ABB systems, ensuring precise welds and uniform joints. This results in exceptional structural integrity and impact resistance, even in challenging environments.

Additional features include aluminum alloy three-stage pedals with pedal lights and slip-protection for enhanced safety and convenience. The use of polyester materials in the cabin significantly reduces noise levels and improves insulation, creating a quieter and more comfortable environment for operators.

Product Features of Shacman Tractor Truck:

| | |
|----------------------------|-------------------------------|
| Product Name | Shacman 4X2/6X4 Tractor Truck |
| Wheelbase | 3600mm |
| Engine Model | WEICHAI WP12.430E201 |
| Horsepower | 430 horsepower |
| Front Axle | 7.5T |
| Oil Tanker Capacity | 400L |
| Tyre | 12R22.5 |
| Colour | As customer's request |

| | |
|-----------------------------|---|
| Capacity (load) | 50~90T |
| Provide After-sales Service | Video technical support, online support |
