- Segement: Heavy Truck
- Market Segement: Logistics Transportation
- Engine Brand: WEICHAI
- Fuel Type: Diesel
- Engine Capacity: > 8L
- Cylinders: 6
- Reverse Shift Number: 2
- Size: 6500*2500*3200
- ESC(Electronic Stability Control System): None
- Touch Screen: None

Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Shacman Tractor Truck:

The steering wheel of the X6000 is wrapped in leather and comes with multi-function buttons. The size and feel of the steering wheel are both first-class. The instrument panel uses an LCD screen, which displays more information and has delicate fonts. This configuration also has keyless entry and keyless start. The previous X6000 one-button start required inserting the key into the groove next to the start button, but after improvements, there is no need to take out the key to achieve true keyless one-button start.

Function buttons are set on the upper and lower berths, and you can control the electric sunroof, cab lights, multimedia volume, independent air conditioning and heating in the cab, etc. while lying on the berth. It is also equipped with USB and headphone interfaces, so you can basically control the main functions of the cab while lying on the berth, which greatly improves convenience.

Product Application of Shacman Tractor Truck :

The Container Tractor Truck's cab top has undergone strict pressure resistance test, with excellent safety performance and better guarantee in product quality. Its thickened cab steel plate and side door crash beam design effectively enhance the passive safety of the cab. This tractor truck can meet basic transportation needs and tackle some complicated tasks.
