

Heavy Truck Weichai Engine Euro 2 Emission 6x4 Tractor Truck Diesel Engine

Basic Information

- Place of Origin: China
- Brand Name: Shacman
- Model Number: X3000
- Minimum Order Quantity: 1
- Price: \$38,000.00/units ≥ 1 units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Emission Standard: Euro -
- Engine: WEICHAI Or Cummins
- Warranty: 1 Year
- Transmission Type: Manual
- Driving Type: Left Hand Driving
- Tyre: 12.00r22.5
- Highlight: emission 6x4 tractor truck,
6x4 tractor truck diesel engine,
emission 6x4 tractor head

Product Description

Heavy Truck Weichai Engine Euro 2 Emission 6x4 Tractor Truck Diesel Engine

Product Description of Shacman Tractor Truck:

A tractor used for towing and pushing heavy trailers. It is equipped with a high-power diesel engine, and is equipped with a mechanical or hydraulic transmission with a high speed ratio and a main reducer. Some also have wheel side reduction devices to reduce speed and increase traction.

Compared with other tractors, SHACMAN tractors are more efficient economy,safety,comfort and intelligent network federation.

High Speed Ratio and Main Reducer: The transmission system of the tractor is designed with a high-speed ratio. This allows the tractor to generate high torque at low speeds, which is essential for towing heavy loads. Additionally, some tractors may have a main reducer that further enhances torque output and pulling power.

SHACMAN tractors stand out from others in terms of their superior efficiency, economy, safety, comfort, and intelligent network integration. Here is a rephrased version of the statement:

SHACMAN tractors excel in terms of efficiency, economy, safety, comfort, and intelligent network integration when compared to other tractors.

SHACMAN tractors are characterized by their impressive efficiency, fuel economy, intelligent features, and comfortable design. They are compatible with engines ranging from 10L to 13L, providing a wide range of options to suit different needs. These tractors are equipped with advanced features such as a four-point airbag shock absorption system, a comfortable Grammer air seat, and noise reduction designs including double seals. These enhancements ensure a smooth and comfortable ride while minimizing noise levels for an optimal driving experience.

The vehicle body of SHACMAN tractors undergoes automated welding using state-of-the-art robotic systems from ABB, a leading global company in automation technology. The main welding process achieves a remarkable automation rate of 100%, ensuring precision and consistency in the welding of the vehicle body.

The Shacman Tractor Truck exhibits high welding accuracy, with evenly distributed solder joints and no issues such as de-soldering or false welding. This ensures that even under harsh environments, the truck maintains its structural integrity without open welding deformation. The truck's welding quality guarantees excellent resistance to impact, providing durability and reliability in challenging operating conditions.

The Shacman Tractor Truck is equipped with an aluminum alloy three-stage pedal that features pedal lights and slip-protection. This advanced pedal design ensures enhanced safety and convenience for the driver. The pedal lights provide visibility in low-light conditions, while the slip-protection feature helps prevent accidents caused by foot slippage, further enhancing the overall safety of the truck.

By applying polyester material, the Shacman Tractor Truck effectively reduces cab noise levels and enhances insulation properties. This utilization of polyester material significantly diminishes noise disturbances within the cab, leading to a quieter and more comfortable driving experience. Additionally, the incorporation of polyester material improves the insulation capabilities of the truck, helping to regulate temperature and create a more pleasant environment for the driver.

Product Application of Shacman Tractor Truck :

The Shacman Container Tractor Truck prioritizes safety and durability in its design. Rigorous pressure resistance tests are conducted on the cab top to ensure its ability to withstand diverse conditions and deliver exceptional safety performance. The cab is reinforced with thickened steel plates and incorporates a side door crash beam design to enhance passive safety. These measures provide enhanced protection for the driver in the event of a collision.

Product Features of Shacman Tractor Truck:

Product Name	Shacman 6X4 Tractor Truck
Wheelbase	3350 mm
Engine Model	WEICHAI WP12.430E201
Horsepower	351-450 horsepower
Front Axle	7100kg
Oil Tanker Capacity	400-500L
Tyre	12R22.5
Colour	As customer's request
Capacity (load)	31-40 ton
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.

FAQ

1.Q: What kind of payment do you accept?

A: We accept T/T; L/C and Western Union; Others payment is negotiable.

2.Q: What's your minimum order quantity?

A: One unit

3.Q: What's your delivery time?

A: Determine according to the speciric Moael. dump truck usually 30 days after received the deposit.

4.Q: What's warranty time?

A: 30,000 km or 12 months from the date of shipment whichever comes first

5.Q: What's your after-sale service?

A: We provide technical support for our trucks and whole life parts supply
