Product Description of Shacman Dump Truck:

To enhance the 8x4 version, we have incorporated a transmission leaf spring suspension system. This upgrade aims to improve the ease of transmission maintenance, enhance the reliability of the components, and ultimately reduce maintenance expenses.

By implementing a cooling mechanism for the steel pipe, the steering system's oil temperature is lowered, leading to a significant decrease in the rate of component failures.

Weichai WEVB exhaust brake system reduces the wear of tires, brake pads and the cost of vehicle use while ensuring safety.

The load-carrying capacity of the rear leaf spring of the four U-bolts rear suspension is upgraded. The thickness of the leaf spring is upgraded from (8*22mm+4*25mm) to 12*25mm, and the stiffness is upgraded by 25%.

Wheel rim has been reinforced, whose thickness increased from 14mm to 16mm and steel ring from 8.5 to 9.0.

Φ120 bore steering gear, the steering assist capacity is increased by 24%.

The ground clearance is increased up to 636mm, and the thickness of the bottom protector is increased from 3mm to 6mm, which can meet the requirements of customers.

The taillight is equipped with a protector to improve the adaptability of complex working conditions, which reduced the risk of the taillight from being damaged.

Matching 9.5 tons of front axle, thickness of front suspension plate spring is 18mm, high stiffness and strong carrying capacity.

Three-layer beam for 8x4 dump truck, the bearing capacity is greatly improved and the bending strength is high.

Product Application of Shacman Dump Truck :

8x4 Mining Dump Truck is specially designed for transportation in mines and other projects, and can be used at temperatures of 50°C and -40°C without any problems. Our product is made of high-quality materials, strong and durable, crossing most types of terrain will not cause problems, and can meet most transportation needs.

Chinese Factories Supply Shacman Trucks for Sale at A Price

Dump trucks are primarily designed for the transportation of goods, and they are typically categorized as heavy or light based on their weight. While most dump trucks are equipped with diesel engines, there are also light trucks that operate on petrol, LPG, or natural gas. These trucks come in various configurations, including 340-560hp power options and driving modes such as 42, 64, and 8*4. In addition to the Shacman Automobile brand, we offer a range of other renowned brands, including Dongfeng, Sinotruk, FAW, SAIC, Universiade, Valin, Beiben, and Auman.
