Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Fire Truck:

Long range, concentrated water flow, large protection area.

Flexible and convenient operation, the gun body can be rotated horizontally and in elevation.

Fire monitor can spray in direct current and spray mode.

The main specifications and performance parameters are in line with the requirements of the People's Republic of China standard GB19156-2003 <General Technical Requirements for Fire Monitors>

Excellent performance, high efficiency, compact structure, beautiful appearance, simple operation and convenient maintenance.

Product Application of Fire Truck :

Cooling down. Sprinkling water on the road surface in hot weather can help lower the temperature and protect the road surface, because if the temperature is too high, the road surface will crack.

Dust removal. The road surface is dusty, and sprinkling water can moisten the dust, effectively preventing the dust from flying up, thereby reducing air pollution.

Greening and gardening, watering roadside flowers and trees, or washing dust off trees. Used as a fire truck in an emergency.
