- Engine Capacity:  $> 8L$
- Gear Box Brand: FAST
- Transmission Type: Manual
- Maximum Torque(Nm):  $\leq 500Nm$
- Cargo Tank Dimension: 5600\*2300\*1500
- Cargo Tank Length: 5.3-6.2M
- Gross Vehicle Weight: 10-15T

## Product Description

### Truck Shacman 6x4 8x4 Low Price Dump Truck M3000

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

#### Product Description of Shacman Dump Truck:

Matching Fast 12-speed manual transmission, model 12JSD180TA, all-aluminum housing, maximum input torque 1800N.m. Looking at the data, it can be seen that the input torque of the transmission is much greater than the output torque of the engine. It is a typical big horse pulling a small car, with a longer service life and a lower failure rate.

It uses the Hande axle matched with Shaanxi Automobile, which has a higher matching degree and better durability. Unlike road vehicles, engineering vehicles usually use wheel reduction axles. First, the wheel reduction axle has a stronger ability to get out of trouble. Secondly, the wheel reduction axle is matched with a 12-speed transmission and a large speed ratio axle (5.262), which will amplify the power output of the engine several times, a typical power amplifier.

The new M3000 is a rare model with a relatively compact frame layout. While taking into account the beauty and practicality, it also demonstrates the excellent quality of Shaanxi Automobile in frame layout capabilities.

#### Product Application of Shacman Dump Truck :

8x4 Mining Dump Truck is specially designed for transportation in mines and other projects, and can be used at temperatures of 50°C and -40°C without any problems. Our product is made of high-quality materials, strong and durable, crossing most types of terrain will not cause problems, and can meet most transportation needs.

#### Chinese Factories Supply Shacman Trucks for Sale at A Price

Dump truck refer to trucks that are mainly used to transport goods. Generally, they can be divided into heavy and light according to the weight of the truck. Most trucks are powered by diesel engines, but some light trucks run on petrol, LPG or natural gas. 340-560hp, 4\*2, 6\*4 and 8\*4 driving modes.
