## Product Description

There are both brand new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

### Product Description OF Concrete Pump Truck:

There are five main control methods for the electrical control system of concrete pump trucks: mechanical, hydraulic, electromechanical electrical control, programmable controller, and logic circuit control.

In addition to the electrical control system installed on the concrete pump truck to complete the control tasks, the concrete pump truck is also equipped with a manual control system, which is also part of the control system.

The flexible shaft operating mechanism has more advantages, such as flexible layout, high transmission efficiency, fewer transition joints, small empty stroke, and convenient stroke adjustment. Therefore, the flexible shaft operating mechanism is mainly selected for the control system of the concrete pump truck.

### Product Application OF Concrete Pump Truck :

At present, the main products include 28m, 31m, 33m, 38m, 50m, 58m, and 65m concrete pump trucks and 28m, 38m, 44m, and 46m mixing pump trucks, 24m, 36m, and 47m aerial work vehicles, 10-50 ton bulk cement trucks, mobile unloadable mixing stations and other engineering machinery equipment; the country's first two-axle 38m pump truck, 46m mixing pump truck, four-axle 65m pump truck, cement truck, mobile unloadable mixing station and other star products.

Dedicated to serving urban and rural infrastructure, it is an enterprise specializing in the production of large-scale construction engineering machinery and equipment, integrating scientific research, production, sales and after-sales service.
