

Stock Shacman Dump Truck X3000 EuroV 351ph Left Hand Drive 6X4 Tipper 10 Wheeler Dump Truck

Basic Information

- Place of Origin: China, Henan
- Brand Name: Shacman
- Model Number: Dump Truck X3000
- Minimum Order Quantity: 1
- Price: \$38,000.00/units ≥ 1 units
- Delivery Time: 10-20 work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Optional: JACOB Brake
- Max. Running Speed (km/h): 85
- Engine Brand: WEICHAİ
- Fuel Type: Diesel
- Tyre: 12.00R20
- Oil Tank: 400-500L
- Engine: ISME385 30
- Gearbox: 10JSD180
- Highlight: Stock Shacman Dump Truck, Shacman Dump Truck X3000, 6X4 10 wheeler dump truck

Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Shacman Dump Truck:

In the upgraded version of the 8x4 dump truck, a transmission leaf spring suspension system is incorporated to enhance the convenience of transmission maintenance. This design improvement not only improves the reliability of transmission components but also helps in reducing maintenance costs. By utilizing the transmission leaf spring suspension, the truck's transmission system becomes more accessible for maintenance purposes, ensuring easier upkeep and minimizing downtime. This ultimately leads to improved overall efficiency and lower maintenance expenses.

The whole vehicle is reasonably matched, reliable in use, and you can choose with confidence.

The implementation of the Weichai WEVB exhaust brake system not only ensures safety but also reduces tire and brake pad wear, resulting in cost savings for vehicle operation. This advanced exhaust brake system effectively assists in slowing down the vehicle, reducing the reliance on traditional braking methods. By utilizing the WEVB system, the wear and tear on tires and brake pads are minimized, leading to extended lifespan and reduced maintenance costs. The integration of this system prioritizes safety while optimizing the overall efficiency and cost-effectiveness of the vehicle.

The load-carrying capacity of the rear leaf spring of the four U-bolts rear suspension is upgraded. The thickness of the leaf spring is upgraded from (8*22mm+4*25mm) to 12*25mm, and the stiffness is upgraded by 25%.

The taillights are equipped with protective devices to effectively provide protection and reduce the risk of damage.

The ground clearance is increased up to 636mm, and the thickness of the bottom protector is increased from 3mm to 6mm, which can meet the requirements of customers.

The taillight is equipped with a protector to improve the adaptability of complex working conditions, which reduced the risk of the taillight from being damaged.

The dump truck is equipped with a 9.5-ton front axle, accompanied by front suspension plate springs with a thickness of 18mm. These robust front suspension plate springs offer high stiffness and exceptional carrying capacity. This design ensures that the truck can effectively handle heavy loads while maintaining stability and durability. The combination of the 9.5-ton front axle and the thick front suspension plate springs guarantees reliable performance and enables the truck to withstand demanding operational conditions with ease.

Product Application of Shacman Dump Truck :

The 8x4 Mining Dump Truck is specifically engineered for efficient transportation within mines and other project sites, capable of operating seamlessly in extreme temperature conditions ranging from 50°C to -40°C. Crafted using top-quality materials, our product exhibits exceptional strength and durability, ensuring reliable performance even in challenging environments. Its robust construction enables smooth traversal across various terrains, guaranteeing trouble-free operations and meeting diverse transportation requirements effectively.

Chinese Factories Supply Shacman Trucks for Sale at A Price

Dump trucks are vehicles primarily designed for the transportation of goods. They can be categorized as either heavy or light depending on their weight. While most dump trucks are equipped with powerful diesel engines, certain light trucks operate on alternative fuels such as petrol, LPG, or natural gas. These trucks come in various configurations, including 340-560 horsepower engines and different driving modes such as 42, 64, and 8*4. In addition to the Shacman Automobile brand, we offer a wide range of other brands including Dongfeng, Sinotruk, FAW, SAIC, Universiade, Valin, Beiben, and Auman.

Product Features of Shacman Dump Truck:

Product Name	Shacman 8X4/6X4 Dump Truck
Wheelbase	3175~4575+1400mm
Engine Model	WEICHAI WP10H400E62
Horsepower	340-560 horsepower
Front Axle	MAN 9.5T
Oil Tanker Capacity	400-500L
Tyre	12.00R20
Colour	As customer's request
Capacity (load)	31-40 ton
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
