Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Fire Truck:

Fire trucks, also known as fire engines, are vehicles designed and manufactured to be suitable for firefighters to ride, equipped with various firefighting equipment or fire extinguishing agents, and used by firefighting forces for firefighting, auxiliary firefighting or fire rescue. They are usually double-row vehicles, and fire departments in most countries, including China, will also use them for other emergency rescue purposes. Fire trucks can transport firefighters to the disaster site and provide them with a variety of tools for disaster relief missions.

Powerful, focus water stream, extensive coverage for maximum protection.

Flexible and convenient operation, the gun body can be rotated horizontally and in elevation.

Fire monitor can spray in direct current and spray mode.

The main specifications and performance parameters are in line with the requirements of the People's Republic of China standard GB19156-2003 <General Technical Requirements for Fire Monitors>

Excellent performance, high efficiency, compact structure, beautiful appearance, simple operation and convenient maintenance.

Product Application of Fire Truck :

Cooling down. Sprinkling water on the road surface in hot weather can help lower the temperature and protect the road surface, because if the temperature is too high, the road surface will crack.

Dust removal. The road surface is dusty, and sprinkling water can moisten the dust, effectively preventing the dust from flying up, thereby reducing air pollution.

Greening and gardening, watering roadside flowers and trees, or washing dust off trees. Used as a fire truck in an emergency.

Product Features of Fire Truck:

Product Name	Fire Truck 4X2 6X4 8X4
Wheelbase	3800mm
Vehicle Curb Weight	5130kg
Water Tank Capacity	7Curb(L)
Fire Monitor/Pump Model	Type 30 Fire Water Monitor
Water Diversion Method	Circulating Water Diversion
Installation	Rear Mounted
Colour	As customer's request
Chassis Weights	11995kg
Provide After-sales Service	Video technical support, online support
