Product Description

Isuzu Elf Hydraulic Beam Lifter Manlift Telescoping Boom Aerial Platform Truck

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Aerial Work Truck:

The self-propelled articulated boom aerial work vehicle has clear and vivid operation signs, which improves the convenience of operation and effectively prevents misoperation.

The turning radius is small and has strong and flexible maneuverability.

The light weight and small size allow a single person to move to the work point easily and flexibly.

It has a telescopic arm, which can be extended for operation, cross certain obstacles or lift and lower in one place for multi-point operation.

Product Application of Aerial Work Truck:

Aerial work vehicles are mainly used for project leasing, curtain wall construction, rooftop waterproofing, solar energy installation, monitoring installation and maintenance, advertising installation, power maintenance, air conditioning installation, ship maintenance, road and bridge repair, etc.

The operating height can reach 30 meters, and the maximum load weight is 200 kg. Blue license plate, C license driving, free of purchase tax.
