## Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

### Product Description of Aerial Work Truck:

**High environmental adaptability:** The electric cylinder for aerial work vehicles is suitable for environments with temperatures of -40 ~60 and altitudes of 0km~4km, with a protection level of IP55~IP67.

**High efficiency:** The electric cylinder for aerial work vehicles directly converts electrical energy into mechanical energy, which is 30%~45% more efficient than traditional hydraulic systems.

**Easy to control:** The electric cylinder for aerial work vehicles can easily achieve precise control of thrust, speed and position through "two wires" (power line and communication line) by utilizing the control characteristics of various motor drives.

**Maintenance-free:** The electric cylinder for aerial work vehicles only needs to be regularly injected with grease, and maintenance is simple.

**Low cost:** During the entire life cycle of the electric cylinder for aerial work vehicles, compared with traditional hydraulic cylinders, the operating cost and maintenance, repair and replacement costs of the electric cylinder save 100,000 yuan to 250,000 yuan.

**Environmental protection:** The electric cylinder for aerial work vehicles has the characteristics of low noise, easy cleaning and no pollution.
