## Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

### Product Description of Aerial Work Truck:

The lightweight boom design has a large operating range, is light and flexible, and has high operating efficiency.

The outrigger has a large span, good stability, and automatically detects the outrigger reaction force. If any outrigger is loose, the vehicle loading work will be stopped.

A full range of safety measures such as amplitude limiter, automatic detection of outrigger reaction force, large position detection alarm, interlocking of getting on and off the vehicle, interlocking of outriggers and booms, and safety valves are provided. The working bar is provided with a  $\pm 80^\circ$  rotation option to meet the user's special working requirements.

When the chassis power system fails, the platform can be lowered and the slewing mechanism can be manually rotated.

The cylinder piston rod is protected by a sheath, and the arm head has a dustproof device.

Night working lighting, 220V/380V power socket for the working bucket, and wireless intercom system between the working bucket and the ground.
