

Automobile Type Hydraulic Aerial Cage Aerial Work Trucks Vehicle

Basic Information

- Place of Origin: China
- Brand Name: Howo, Isuzu, JMC
- Model Number: Aerial Work Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units ≥ 1 units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Product Name: Euro -
- Working Height: 30M
- Working Bucket Rated Load: 200kg
- Operating Position: Turntable/remote Control/display Screen Operation
- Type: 4X2 6X4 8X4
- Driving Type: Left Hand Driving
- Vehicle Size: 5998*2100*3200(mm)
- Total Mass: 4495(kg)
- Wheelbase: 3280(mm)
- Engine: WEICHA130/140
- Working Desk Size: 1600*680*1000(mm)
- Engine System: Water Cooled,turbocharged,after Cooled
- Highlight: Automobile Aerial Work Truck,
Hydraulic Aerial Work Truck,

Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Aerial Work Truck:

The self-propelled aerial work lifting platform vehicle with completely independent intellectual property rights has been developed. It adopts technologies such as electromechanical and hydraulic integration, reliability design and computer-aided design, and has successfully developed a fully hydraulically driven, self-propelled special chassis, breaking the limitation that domestic aerial work lifting platform vehicles can only be designed with modified automobile or crane chassis.

The chassis structure breaks through the traditional design theory and method, and reduces the center of gravity offset by optimizing the overall layout and load distribution of the vehicle platform.

The unique large-angle backward hinge structure is adopted, and a variety of counterweight modules are reasonably set to effectively balance the working torque.

The H-type variable-section composite box beam rigid frame and high-load solid rubber tires are adopted to increase the overall rigidity of the chassis, ensure the stability of the whole machine during driving and operation, and realize the function of the aerial work lifting platform vehicle to travel with load.

Product Application of Aerial Work Truck:

Aerial work vehicles are mainly used for project leasing, curtain wall construction, rooftop waterproofing, solar energy installation, monitoring installation and maintenance, advertising installation, power maintenance, air conditioning installation, ship maintenance, road and bridge repair, etc.

The operating height can reach 30 meters, and the maximum load weight is 200 kg. Blue license plate, C license driving, free of purchase tax.

Product Features of Aerial Work Truck:

The platform load of the work vehicle is 200KG, and the maximum working height is 30m	
Wheelbase	3280mm
Engine Model	WEICHA1130/140
Emission Level	Euro
Cab	Accommodate 3 people, equipped with air conditioning
Power take-off system	Mechanical operation
Brand	Howo/Isuzu/JMC
Colour	As customer's request
Vehicle Weights	4495kg
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.

FAQ

1.Q: What kind of payment do you accept?

A: We accept T/T;L/C and Western Union; Others payment is negotiable.

2.Q: What's your minimum order quantity?

A: One unit

3.Q: What's your delivery time?

A:Determine according to the specirie Moael. dump truck usually 30 days after received the deposit.

4.Q: What's warranty time?

A: 30,000 km or 12 months from the date of shipment whichever comes firs

5.Q: What's your after-sale service?

A: We provide technical support for our trucks and whole life parts supply
