

OEM Cooling Van Truck Semi Trailer Refrigerated Van Trailer Tri Axle Semi Freezer Trailer

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Van Semi Trailer
- Minimum Order Quantity: 1
- Price: \$52,200.00/units ≥ 1 units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Product Name: Van Semi Trailer
- Material: Steel, Steel And PVC
- Size: Around 13720*2545*4000
- Max Payload: 32800kg
- Inner Dimension: Length*width*height: 13620x2475x2700(mm)
- Tire: 385/65R22.5
- OEM: Acceptable
- Tare Weight: 7300kg(+/-5%)
- Fifth Wheel Height: 1150mm
- Capacity: 32800kg
- Highlight: OEM Cooling Van Truck,
Semi Trailer Refrigerated Van Trailer,
Tri Axle Semi Freezer Trailer

Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Van Semi Trailer:

The body of a box-type semi-trailer includes a side wall formed by connecting a plurality of sandwich panels in an overlapping manner, characterized in that the overlapping parts of two adjacent sandwich panels among the plurality of sandwich panels are inwardly contracted to form a thin plate-shaped connecting section, and a fixed connecting hole is provided on the connecting section.

The box-type semi-trailer body provided by the utility model has a body in which the thickness of the single sandwich panel connecting section is less than the total thickness of the sandwich panel, and the thickness of the two sandwich panel connecting sections after superposition is equivalent to the thickness of the single sandwich panel, which can ensure that the inner and outer surfaces of the sandwich panel after the two sandwich panel connecting sections are overlapped and riveted together are flat, and there is still a sandwich layer between the steel plates on the inner and outer surfaces of the thinned part of the sandwich panel connecting section.

Two adjacent sandwich panels are connected together by rivets using a sandwich panel overlap connection method, so that several sandwich panels can be connected to form the side wall panel of the box-type semi-trailer, and the strength and rigidity of the sandwich panel side wall after connection can meet the use requirements of the side wall of the box-type semi-trailer.

Product Application of Van Semi Trailer:

General Freight Transport: Ideal for moving a diverse range of goods, from consumer products to industrial materials, across supply chains.

E-commerce Logistics: Seamlessly integrate into the last-mile distribution networks of online retailers, delivering parcels and packages efficiently.

Furniture & Appliance Delivery: Provide secure, damage-free transport for bulky, fragile household items from manufacturers to retail outlets.

Construction Material Haulage: Facilitate the movement of building supplies, equipment, and tools to project sites.

Disaster Relief Operations: Can be rapidly deployed to disaster-affected areas to transport emergency supplies and humanitarian aid.

Product Features of Van Semi Trailer:

Van Semi Trailer	
Overall Dimension(mm)	13720x2545x4000
Barrel Wall Material	Front wall:steel Side:PVC
Suspension	Air suspension system
Tire	385/65R22.5 7units
Rim	11.75*22.5 aluminum rim
Spare tire carrier	Cage type spare wheel holder
King pin steel(mm)	1685mm from the front of front wall
EBS	EBS 2S/2M
Provide After-sales Service	Video technical support, online support
