

## 4x4 Driving Wheel Water Tank Truck Euro IV 25000 Liters Water Tanker Trucks

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Shacman Special Truck
- Model Number: Water Tank Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units  $\geq 1$  units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability:  $\geq 100$  units

### Product Specification

- Product Name: Water Tank Truck
- Driving Type: LHD RHD
- Chassis Model: EQ1250GL6DJ
- Drive Wheel: 8x4 6x4 4x2
- Tank Capacity: 18.88cube
- Tank Size: 6300\*2350\*1500(mm)
- Total Mass: 25000kg
- Curb Weight: 10725kg
- Highlight: Euro IV Water Tank Truck,  
Euro IV water tanker truck,  
4x4 Water Tank Truck

## Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

### Product Description of Water Tank Truck:

A water tanker is a vehicle designed specifically for transporting and storing water. It usually has a large-capacity water tank and can be used for various purposes, such as water supply, firefighting, street cleaning, agricultural irrigation, etc. Water tankers are usually equipped with high-flow water pumps to pump water from the tank and spray it through a water spraying rod or nozzle. These vehicles are widely used in urban and rural environments to provide people with water support for cleaning, fire fighting, irrigation, etc.

A water tanker is a vehicle specially designed for transporting and storing water. It usually has a large-capacity water tank, usually between 5,000 liters and 20,000 liters. The appearance of a water tanker is similar to a truck, but its main function is to carry and supply water.

Water tankers are typically highly maneuverable and compact, allowing them to operate in narrow city streets and hard-to-reach locations. They can also be equipped with a variety of additional equipment, such as hose reels, sprinkler heads and filtration systems, to provide a more flexible and efficient water supply solution.

Water tankers are widely used in urban and rural environments to provide a stable and reliable water supply to communities, factories, farmlands and buildings. They play an important role in maintaining public health, fire fighting and rescue, greening and beautification, and infrastructure construction.

### Product Application of Water Tank Truck:

The water tanker trucks produced by our factory have multiple functions for greening and sanitation. They are mainly used for washing roads in large, medium and small cities, greening of trees, green belts and lawns, construction of roads, factories and mines, and washing of high-altitude buildings.

The Water Truck offers a range of versatile functions to meet various requirements. It is equipped with features such as water sprinkling, dust suppression, high and low position spraying, pesticide spraying, and guardrail washing. Additionally, it serves the purposes of water transportation, water drainage, and emergency fire fighting.

### Product Features of Water Tank Truck:

CL5252GPSD6 Greening Spraying Truck	
Wheelbase	4350+1350mm
Engine Model	B6.2NS6B230
Emission Level	Euro
Cab	Dongfeng T5
Air-blown sprayer	8KW Air-cooled diesel generator set
Brand	Howo/Isuzu/JMC
Colour	As customer's request
Vehicle Weights	25000kg
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
