

## Single Axle Tractor Mounted High Efficiency Water Tank Trailer 3 Tons

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Shacman Special Truck
- Model Number: Water Tank Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units  $\geq 1$  units
- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability:  $\geq 100$  units

#### Product Specification

- Product Name: Water Tank Truck
- Condition: New
- Chassis Model: EQ1250GL6DJ
- Drive Wheel: 8x4 6x4 4x2
- Tank Capacity: 18.88cube
- Vehicle Weights: 25000kg
- Highlight: **Single Axle water tank trailer ,  
High Efficiency water tank trailer ,  
3 Tons water tank trailer**

## Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

### Product Description of Water Tank Truck:

The Water Truck offers a range of versatile functions to meet various requirements. It is equipped with features such as water sprinkling, dust suppression, high and low position spraying, pesticide spraying, and guardrail washing. Additionally, it serves the purposes of water transportation, water drainage, and emergency fire fighting.

The watering truck is suitable for washing various roads, trees, green belts, lawns, roads, factory and mine construction, and high-altitude building washing. It has the functions of watering, dust suppression, high and low-position spraying, pesticide spraying, guardrail washing, etc. It also has the functions of water transportation, drainage, emergency fire fighting, etc.

Water tanker is a special vehicle used to transport water. Tank trucks are widely used in sanitation, oil transportation, and chemical product transportation.

A custom water tanker is a specially designed piece of equipment that is equipped with a high-flow pump, water spraying pole and hose reel, designed to provide efficient, targeted water delivery for tasks such as street cleaning and fire response.

The compact and maneuverable design of the water tanker enables it to maneuver easily in tight urban spaces and reach hard-to-reach locations.

**Reliability:** Robust, well-engineered construction ensures the durability and dependability of water tankers, even in demanding operating conditions.

Tank trucks are mainly composed of a vehicle body, a tank, inlet and outlet valves, flow meters, etc. Common tank materials include high-quality carbon steel, stainless steel, aluminum alloy, etc. Each material has different advantages and disadvantages and needs to be selected according to the use environment and material characteristics. The main function of a tank truck is to transport various liquids, gases or powder substances, and can deliver substances from production bases or storage areas to end customers' factories, warehouses or processing production lines.

### Product Application of Water Tank Truck:

**Optional configuration:** The prices of water sprinklers produced by various factories in various parts of China are different. Standard configuration of water sprinklers (greening sprayers, water tankers): front flushing, rear sprinkling, side spraying; high-position side sprinklers; rear working platform, with greening sprinkler cannon, which can be adjusted into a column shape with a range of  $\geq 28\text{m}$ ; it can also be adjusted into a mist shape with a range of  $\geq 15\text{m}$ . Optional medicine trays and sprayers. You can also add medicine trays, medicine tray pumps, anti-corrosion and anti-rust in the tank, multi-directional water inlet and outlet joints, solenoid valves, pneumatic valves and other advanced facilities to meet the needs of different users.

**Entry Atlas**

**Applicable to a variety of fields:** Tank trucks can be used to transport various liquids, gases and powdered materials, and are widely used in chemical, food, medicine and other fields, with great market potential and application prospects.

**Environmental protection and energy saving:** The design and manufacturing process of tank trucks focuses on energy conservation and environmental protection, which can reduce energy consumption and pollution emissions, and is conducive to sustainable development.

### Product Features of Water Tank Truck:

| CL5252GPSD6 Greening Spraying Truck |   |
|-------------------------------------|---|
| Wheelbase                           | 4350+1350mm                             |
| Engine Model                        | B6.2NS6B230                             |
| Emission Level                      | Euro                                    |
| Cab                                 | Dongfeng T5                             |
| Air-blown sprayer                   | 8KW Air-cooled diesel generator set     |
| Brand                               | Howo/Isuzu/JMC                          |
| Colour                              | As customer's request                   |
| Vehicle Weights                     | 25000kg                                 |
| Provide After-sales Service         | Video technical support, online support |

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
