### Product Description of Shacman Dump Truck:

6x4 dump trucks are equipped with high-quality engines. The advantages of this engine are high torque, low emissions, strong power and good economy.

The cooling steel pipes installed in our dump trucks can reduce the oil temperature of the steering system and effectively reduce the component failure rate.

Weichai WEVB exhaust brake system can not only ensure driving safety, but also reduce wear on tires and brake pads, reducing vehicle usage costs.

The raw materials used in vehicle manufacturing are of high quality, strong and durable, and have strong load-bearing capacity.

Equipped with a high-quality gearbox with multiple gears for easy gear selection and shifting.

The three-layer beam of 8x4 dump truck has greatly improved load-bearing capacity and high bending strength.

Vehicles equipped with aviation seats can improve the driver's driving experience, make long-distance driving more comfortable, and relieve fatigue to a certain extent.

The four U-bolt rear suspension makes it stronger in Europe.

### Product Application of Shacman Dump Truck :

The hydraulic pump is driven through the transmission and power take-off device to push the piston rod to tilt the heavy-duty dump truck. At the same time, the movement of the piston rod is controlled through the operating system, so that the car can be parked in any desired tilt position.
