Product Description

Our company has both new and second-hand vehicle. Please tell us your specific needs and We will help you choose the most suitable one.

Product Description of Shacman Dump Truck:

8x4 dump trucks of our company are equipped with high-quality engines. The engine has large displacement, low emissions, strong power and good economy.

The dump truck is equipped with cooling steel pipes that can reduce the oil temperature of the steering system, thereby effectively reducing the component failure rate.

Weichai WEVB exhaust brake system not only ensures safety, but also reduces tire and brake pad wear, reducing vehicle usage costs.

The raw materials used in the vehicle have excellent capabilities, strong structure and high load capacity.

The vehicle is equipped with a high-quality multi-speed transmission, making gear selection and shifting easy.

The three-layer beam of the 8x4 dump truck improves the load-bearing capacity and has high bending strength.

The vehicle is equipped with aviation seats to enhance the driver's driving experience, make long-distance driving more comfortable and relieve fatigue to a certain extent.

The four U-bolt rear suspension makes it stronger in Europe.

Product Application of Shacman Dump Truck :

Heavy dump trucks use a unique and power take-off device to drive a hydraulic pump that pushes the piston rod to tilt the vehicle. Meanwhile, by mechanically controlling the movement of the piston rod, the car can be parked at any desired tilt position.

Chinese Factories Supply Shacman Trucks for Sale at A Price

Dump trucks are used for transporting goods. Trucks can be divided into heavy trucks and light trucks by weight. Most trucks have diesel engines, but we also have other types of fuel vehicles such as LNG, CNG and gasoline models. The horsepower range of the vehicle is 340-560 horsepower, and the driving modes include 4 * 2, 6 * 4, and 8 * 4. And we not only have Shaanxi Automobile brand tractors, but also offer brands such as Dongfeng, Heavy Duty Truck, FAW, SAIC, Dayun, Hualing, Beiben, and Ouman.s.
