Product Description

Product Description of Shacman Dump Truck:

8x4 6x4 dump trucks come with high-quality weichai engines. The advantages of this engine are large displacement, low emissions, strong power and good economy.

F3000 Dump trucks are equipped with cooling steel pipes that can reduce the oil temperature of the steering system, thereby effectively reducing the component failure rate.

The vehicle uses high-quality raw materials, has a solid structure and high load-bearing capacity.

Equipped with a high-quality gearbox, multi-speed gears, making gear selection and shifting easy.

The three-layer beam of the 8x4 dump truck not only improves the load-bearing capacity, but also has high bending strength.

Municipalities use the X3000 for various public works projects, including road maintenance and landscaping, showcasing its versatility in urban settings.

The four U-bolt rear suspension makes it stronger in Europe.

Product Application of Shacman Dump Truck :

Heavy-duty dump truck uses a unique power take-off device to drive the hydraulic pump and push the piston rod to tilt the vehicle. At the same time, by mechanically controlling the movement of the piston rod, the car can be parked in any desired tilted position.
