Product Description

Our company has both new and second-hand vehicle. Please tell us your specific needs and we will help you make the best choice.

Product Description of Shacman Dump Truck:

The 6x4 dump trucks of our company are equipped with high-quality engines, with large displacement, low emissions, strong power and good economy.

Steel pipes can reduce the cooling oil temperature of the steering system, thereby effectively reducing the component failure rate.

Weichai WEVB exhaust brake system can ensure safety, reduce tire and brake pad wear, and reduce vehicle usage costs.

The vehicle uses high-quality raw materials, has a solid structure and high load-bearing capacity.

High-quality multi-speed transmission makes gear selection and shifting easy.

The three-layer beam of the 8x4 dump truck can improve the load-bearing capacity and has high bending strength.

Aviation seats improve the driver's driving experience, make long-distance driving more comfortable, and relieve fatigue to a certain extent.

The four U-bolt rear suspension makes it stronger in Europe.

Product Application of Shacman Dump Truck :

The heavy-duty dump truck has a unique power take-off device that drives the hydraulic pump and pushes the piston rod to tilt the vehicle. At the same time, by mechanically controlling the movement of the piston rod, the car can be parked in any desired tilted position.

Chinese Factories Supply Shacman Trucks for Sale at A Price

The main purpose of dump trucks is to transport goods. According to weight, they can be divided into heavy trucks and light trucks. Most vehicles are equipped with diesel engines, but we also have vehicles with other types of fuel, such as LNG, CNG and gasoline models. 340-560 horsepower, drive modes are 4*2, 6*4, 8*4.
