## Product Description

Our company can provide new vehicles as well as used trucks. You just tell us your transportation needs and we will customize a tractor with different loading weights, volumes and colors for you. A good truck will help you get the job done smoothly.

### Product Description OF Shacman Tractor Truck:

The purpose of a tractor head is to tow and push a heavy trailer. The traction head is generally equipped with a high-power diesel engine and a high-ratio mechanical or hydraulic transmission device and main reducer. Some are also equipped with wheel rim reduction devices to reduce speed and increase traction.

The advantages of Shaanxi Automobile tractor heads are more efficient and economical, safe and comfortable, and intelligent network connection.

High efficiency, low fuel consumption, smart and comfortable, can be matched with 10L, 11L, 12L, 13L engines, four-point airbag shock absorption, Grammer air seats, double seals and other noise reduction designs.

Shaanxi Automobile's body is automatically welded by robots from the world's top ABB company, with a 100% welding automation rate. Moreover, the welding precision is high, the solder joints are evenly distributed, and there is no desoldering or virtual soldering. It can ensure that there will be no welding deformation and impact resistance in harsh environments.

Aluminum alloy three stage pedal equipped with pedal lights and slip-protection.

The cab uses polyester material, which can greatly reduce cab noise and improve sound insulation quality.

### Product Application OF Shacman Tractor Truck :

The top of the container tractor cab has undergone strict pressure resistance testing, with excellent safety performance and better guarantee of product quality. The thickened cab steel plate and side door anti-collision beam design can effectively enhance the safety of the cab. This tractor can handle basic transportation needs and handle some complex tasks.
