- Highlight: 4000L Water Shutter Roller Fire Truck,  
Left Right Hand Drive Fire Truck,  
Diesel Water Shutter Roller Fire Truck

## Product Description

There are both new and second-hand trucks. Please provide us with your specific transportation needs, and we will help you choose the one that best suits you based on your specific needs. A good truck will help you get the job done smoothly.

### Product Description of Fire Truck:

The advantages of this vehicle are long range, concentrated water flow, and large protection area.

The vehicle operation is flexible and convenient, and the gun body can be rotated horizontally and vertically.

The fire cannon equipped on the vehicle can spray in two ways: direct flow and spray.

The main specifications and performance parameters are in line with the requirements of the People's Republic of China standard GB19156-2003 <General Technical Requirements for Fire Monitors>

This fire truck has excellent performance, high efficiency, compact structure, beautiful appearance, simple operation and convenient maintenance.

### Product Application of Fire Truck :

Cooling function. Sprinkling water on the road surface when the weather is hot can effectively reduce the temperature of the road surface and protect the road surface, because if the temperature is too high, the road surface will crack.

Dust removal function. There is a lot of dust on the road. Sprinkling water can moisten the dust and effectively prevent dust from flying, thereby reducing air pollution.

Landscaping and gardening. You can water the flowers, plants and trees on the roadside, or wash away the dust on the trees. Used as a fire truck in emergencies.

### Product Features of Fire Truck:
