## Product Description

Our company has new and used truck resources. Please provide us with your specific transportation needs and we will help you make the best choice. A good truck will help you get the job done smoothly.

### Product Description of Aerial Work Truck:

The vehicle is equipped with an electronic control system whose main functions are: controlling the start and stop of the engine and displaying the length of the main arm.

Effectively control boom rotation, pitch, extension, work platform rotation, angle adjustment, etc.

The vehicle control work platform can rotate left and right and tilt forward and backward.

The vehicle is equipped with a start-stop and deceleration function, which greatly increases safety during operation.

The vehicle is equipped with safety protection functions: important safety matters are equipped with alarm functions to automatically complete protective actions.

The platform can rotate 360 degrees left and right, and the hanging basket is made of high-strength stainless steel, which is flexible in operation.

### Product Application of Aerial Work Truck:

The vehicle is critical for installing and servicing cellular antennas and cabling on high-rise buildings, ensuring quick access to critical infrastructure.

The main uses of aerial work vehicles are engineering rental, curtain wall construction, roof waterproofing, solar energy installation, monitoring installation and maintenance, advertising installation, power maintenance, air conditioning installation, ship maintenance, road and bridge maintenance, etc.

Commonly deployed for maintaining HVAC systems, electrical installations, and signage, enabling easy access to elevated areas without scaffolding.

### Product Features of Aerial Work Truck:

The platform load of the work vehicle is 200KG, and the maximum working height is 30m	
Wheelbase	3280mm
Engine Model	WEICHA1130/140
Emission Level	Euro
Cab	Accommodate 3 people, equipped with air conditioning
Power take-off system	Mechanical operation
Brand	Howo/Isuzu/JMC
Colour	As customer's request
Vehicle Weights	4495kg
Provide After-sales Service	Video technical support, online support
