Product Description

Our company is the only company who is both the distributor of Shacman and Weichai engine in China. So we can supply you all the accessories of trucks for life time. Please let us know your transportation needs and we can help you choose the suitable one for you.

Product Description OF Shacman Tractor Truck:

The main purpose of SHACMAN tractors is to tow and push heavy trailers. It is equipped with a powerful diesel engine and a mechanical or hydraulic transmission that effectively provides high speed ratios and final deceleration. Some models also include rim reducers for enhanced traction control.

The advantages of Shacman tractor truck include outstanding performance in high efficiency, safety, comfort, and intelligent network connection. The tractor truck is equipped with the characteristics of high efficiency, low fuel consumption, intelligent design, and engine displacement from 10 to 13 liters. The cabin is equipped with better noise reduction technology and is equipped with four-point airbag shock absorption and Grammer aviation seats.

Shacman tractor truck has also launched various versions of tractors for different operating environments, including diesel, natural gas and pure electric vehicles.

The vehicle is equipped with aluminum alloy three-section pedals with pedal lights and anti-skid protection. The use of polyester in the cockpit significantly reduces noise and improves thermal insulation.

Product Application OF Shacman Tractor Truck :

The top of the tractor cab has undergone rigorous pressure testing to ensure higher product quality and higher safety performance. The thickened cab steel plate and side door anti-collision beam design effectively enhance the passive safety of the cab. This tractor can handle basic transportation needs and handle some complex tasks.
