Product Description

SHACMAN X6000 Tractor Truck

Tractor Truck is a specialized vehicle used for towing large trucks or trailers. It typically consists of a wheeled or tracked tractor unit and one or more trailers. Tractor-trailers are known for their high strength, reliability, and load-carrying capacity, making them ideal for long-distance and heavy-duty transportation. They play an important role in the logistics and transportation industry and are an essential part of modern industrialized societies.

Product Application :

The Container Tractor Truck's cab top has undergone strict pressure resistance test, with excellent safety performance and better guarantee in product quality. Its thickened cab steel plate and side door crash beam design effectively enhance the passive safety of the cab. This tractor truck can meet basic transportation needs and tackle some complicated tasks.
