## Product Description

### Truck Shacman 6x4 8x4 Low Price Dump Truck M3000

#### Product Description of Shacman Dump Truck:

The left/right side of the frame is equipped with a post-processing system, maintenance-free battery, air tank, spare tire rack and engine start switch. The weichai/cummins engine start switch is very practical.

The spacious cabin is designed for operator comfort, featuring adjustable seats and intuitive controls for easy handling.

Built with durable materials, the M3000 is designed to withstand harsh working environments and heavy loads. The M3000 is very likely that this model is a dump truck launched for plain areas. For mountainous working conditions, our class has reason to believe that the new M3000 will consider the issue of air pressure sprinklers.

The air filter element of Delong's new M3000 adopts a double-filtration method. The air is first filtered through the oil filter for the first time, and then filtered through the air filter for the second time. The air that has been filtered twice will finally enter the engine, which fully guarantees the cleanliness of the engine intake system.

#### Product Application of Shacman Dump Truck :

Overall, the SHACMAN X3000 dump truck combines power, efficiency, and advanced safety features, making it an ideal choice for construction and mining operations.

8x4 6x4 Mining Dump Truck M3000 is specially designed for transportation in mines and other projects, and can be used at temperatures of 50°C and -40°C without any problems. Our product is made of high-quality materials, strong and durable, crossing most types of terrain will not cause problems, and can meet most transportation needs.
