Product Description

Product Description of Mixer Truck:

Shacman mixer truck proven power delivery system that improves overall efficiency, increases uptime and reduces maintenance costs.

Impressive Capacity: Sturdy frames and powertrains allow for large payload volumes in a single trip.

Maneuverability: Tight turning radii and easy operator access simplify navigation on congested job sites.

New shacman concrete mixer truck adopts an assembled cable-stayed structure, which further improves the torsion resistance of the shacman x3000 concrete mixer truck frame, reasonably reduces the impact of the torsion of the upper part on the chassis, and extends the chassis structurally and the service life.

Advanced Safety: Comprehensive safety systems and ergonomic cab designs protect operators and personnel.

Product Application of Mixer Truck :

Shacman 6x4 mixer truck has a variety of configurations to choose from, such as 6X4, 8X4, etc. The size of the capacity can be customized according to your needs.

High-Rise Development: The maneuverability of Shacman mixers allows them to navigate tight urban jobsites and access hard-to-reach areas, making them invaluable for supplying concrete to towering skyscraper and high-rise developments.

Specialty Applications: Shacman mixer truck can be customized with features like extended discharge chutes to reach elevated placements or specialized mixing systems for unique concrete formulations required in applications like shotcrete or self-leveling floors.
