Product Description

Product Description of Mixer Truck:

New shacman 6x4 concrete mixer truck control system has accurate positioning, reliable control, compact structure and flexible operation.

Impressive Capacity: Sturdy frames and powertrains allow for large payload volumes in a single trip.

Maneuverability: Tight turning radii and easy operator access simplify navigation on congested job sites.

The tank body and blades of the Shacman h3000 cement mixer truck are made of special wear-resistant steel, which enhances the wear resistance and effectively prolongs the service life.

Shacman cement mixer truck hydraulic rotation system adopts well-known brands in the field of fluid power, such as Eaton, Sauer, etc., with guaranteed quality and good after-sales service.

Product Application of Mixer Truck :

Shacman 6x4 mixer truck has a variety of configurations to choose from, such as 6X4, 8X4, etc. The size of the capacity can be customized according to your needs.

High-Rise Development: The maneuverability of Shacman mixers allows them to navigate tight urban jobsites and access hard-to-reach areas, making them invaluable for supplying concrete to towering skyscraper and high-rise developments.

Specialty Applications: Shacman mixer truck can be customized with features like extended discharge chutes to reach elevated placements or specialized mixing systems for unique concrete formulations required in applications like shotcrete or self-leveling floors.
