Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Mixer Truck:

Shacman 8x4 concrete mixer truck control system has accurate positioning, reliable control, compact structure and flexible operation.

Impressive Capacity: Sturdy frames and powertrains allow for large payload volumes in a single trip.

Maneuverability: Tight turning radii and easy operator access simplify navigation on congested job sites.

Shacman concrete mixer is equipped with a large water tank, air pressure water supply, and the flushing pressure is controlled within the range of 0.35-0.4 MPa. The main water pipe is made of aluminum-plastic pipe, which greatly improves the anti-freezing and anti-aging capabilities of the waterway.

Product Application of Mixer Truck :

Large-Scale Infrastructure:Shacman mixers are frequently deployed for major bridge,highway,and dam construction projects,where their ability to deliver consistent,high-volume concrete is critical to pouring large,complex foundations and structural components.

High-Rise Development: The maneuverability of Shacman mixers allows them to navigate tight urban jobsites and access hard-to-reach areas, making them invaluable for supplying concrete to towering skyscraper and high-rise developments.

Specialty Applications:Shacman mixer truck can be customized with features like extended discharge chutes to reach elevated placements or specialized mixing systems for unique concrete formulations required in applications like shotcrete or self-leveling floors.
