Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Mixer Truck:

The automatic feeding mixer can also be well adapted, with strong power, low torque, four-wheel steering, and two-way driving.

Cost saving: The labor costs mentioned above, it can also save a lot of material costs.

High safety: Because the rear weight is too large, the traditional mixer truck has great safety hazards when climbing. The automatic feeding mixer truck has reasonable design of body structure and counterweight, stable walking and high safety factor.

Product Application of Mixer Truck :

Large-Scale Infrastructure:Shacman mixers are frequently deployed for major bridge,highway,and dam construction projects,where their ability to deliver consistent,high-volume concrete is critical to pouring large,complex foundations and structural components.

High-Rise Development: The maneuverability of Shacman mixers allows them to navigate tight urban jobsites and access hard-to-reach areas, making them invaluable for supplying concrete to towering skyscraper and high-rise developments.

Specialty Applications:Shacman mixer truck can be customized with features like extended discharge chutes to reach elevated placements or specialized mixing systems for unique concrete formulations required in applications like shotcrete or self-leveling floors.
