- Delivery Time: 10-20work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Outside Dimensions: 10390*2520*3995(mm)
- Condition: New/Used
- Wheelbase: 1800+3000+1400(mm)
- After-sales Service Provided: Video Technical Support, Free Spare Parts
- Engine: WP8.340E51
- Total Mass: 31000(kg)
- Drive Wheel: 4x2 6x4 8x4
- Horsepower: 251 - 350hp
- Highlight: **Shacman Chassis Mixer Trucks,
Large Scale Infrastructure Mixer Trucks**

Product Description

There are both new and second-hand trucks. Just tell us your transportation needs and we will customize tractors with different loading weights, volumes, and colors. A good truck will help you work well.

Product Description of Mixer Truck:

Door double seals / Manual skylight sealing improvement / Strict shower test to check dealing performance / Telescopic shaft shift mechanism improves the cab tightness / Large curved panoramic bridge car quality front windshield, super wide view / Four new steering wheel, car design, instrument line of sight without shade / Most comfortable driving angles

Cost saving: The labor costs mentioned above, it can also save a lot of material costs.

Shacman is equipped with parts from world well-known suppliers such as Williams pedal mechanism, German ZF steering gear, Eaton Clutch, WABCO body and air dryer system, German VOSS quick docking system, allowing more reliable and stable vehicle performance.

Product Application of Mixer Truck :

Large-Scale Infrastructure:Shacman mixers are frequently deployed for major bridge,highway,and dam construction projects,where their ability to deliver consistent,high-volume concrete is critical to pouring large,complex foundations and structural components.

High-Rise Development: The maneuverability of Shacman mixers allows them to navigate tight urban jobsites and access hard-to-reach areas, making them invaluable for supplying concrete to towering skyscraper and high-rise developments.

Specialty Applications:Shacman mixer truck can be customized with features like extended discharge chutes to reach elevated placements or specialized mixing systems for unique concrete formulations required in applications like shotcrete or self-leveling floors.
