

## Emission Standard Euro 3-Euro 6 Fire Truck For High-Rise Building And Forest Fire Fighting

### Basic Information

- Place of Origin: China, Henan
- Model Number: Fire Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units  $\geq 1$  units
- Delivery Time: 10-20 work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability:  $\geq 100$  units

### Product Specification

- Color: Red
- Drive Mode: 6x4 8x4
- Drive Type: Left Hand Drive OR LHD
- Range: Water  $\geq 55$ (m)
- Equipment Storage: Multiple Compartments
- Emission Standard: Euro3-euro6
- Weight: 8400kg
- Engine Type: Diesel
- Highlight: High Rise Building Fire Truck, Euro 6 Fire Truck, Forest Fire Fighting Fire Truck

## Product Description

### Product Description of Fire Truck:

**Powerful Performance:** Fire trucks need to reach the scene of an incident quickly, so they are equipped with powerful engines that ensure the vehicle maintains high speeds even when fully loaded.

**Versatility:** Modern fire trucks often have multiple functions, including not only basic firefighting but also traffic accident rescue, handling of chemical hazards, high-rise building rescue, and more.

**Specialized Equipment:** Fire trucks are fitted with specialized firefighting and rescue tools such as hoses, nozzles, fire pumps, foam generators, dry chemical extinguishing systems, and emergency medical equipment.

**Water Tanks and Pipeline Systems:** Most fire trucks are equipped with water tanks for storing water for firefighting and a sophisticated pipeline system to deliver water to the fireground.

**Communication Devices:** To maintain communication with the fire command center and other rescue forces, fire trucks are equipped with radio communication equipment.

### Product Application of Fire Truck :

The use of cement pump trucks reflects the development direction of modern construction projects that pursue high efficiency, energy saving, environmental protection, and safety, and is of great significance to improving the overall construction level of the construction industry.

**Efficient transportation:** The cement pump truck can quickly and efficiently transport concrete to any location on the construction site, greatly improving construction efficiency.

**Reduce losses:** The pump truck reduces the leakage and waste of concrete during the transportation process. Compared with traditional transportation methods, it can better ensure the saving of materials.

### Product Features of Fire Truck:

<b>Product Name</b>	Fire Truck 6X4 8X4
<b>Wheelbase</b>	3800mm
<b>Vehicle Curb Weight</b>	5130kg
<b>Water Tank Capacity</b>	7Curb(L)
<b>Fire Monitor/Pump Model</b>	Type 30 Fire Water Monitor
<b>Water Diversion Method</b>	Circulating Water Diversion
<b>Installation</b>	Rear Mounted
<b>Colour</b>	As customer's request
<b>Chassis Weights</b>	11995kg
<b>Provide After-sales Service</b>	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
