

Brand New Euro 5 Effective Fire Suppression With Large Water Tank And High-Capacity Pump System Of Fire Truck

Our Product Introduction

Basic Information

- Place of Origin: China, Henan
- Model Number: Fire Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units ≥ 1 units
- Delivery Time: 10-20 work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Color: Red
- Drive Mode: 6x4 8x4
- Drive Type: Left Hand Drive OR LHD
- Range: Water ≥ 55 (m)
- Equipment Storage: Multiple Compartments
- Emission Standard: Euro3-euro6
- Weight: 8400kg
- Engine Type: Diesel
- Highlight: Large Water Tank Fire Truck, Euro 5 Fire Truck, High Capacity Pump System Fire Truck

Product Description

Product Description of Fire Truck:

Warning Systems: Fire trucks are fitted with bright warning lights and sirens to alert other vehicles and pedestrians during emergency travel.

Communication Systems: Modern fire trucks are equipped with advanced communication devices to maintain contact with command centers and other rescue units during operations.

Protection Equipment: Fire trucks may be equipped with automatic fire suppression systems, bulletproof glass, and protective armor to safeguard firefighters and the vehicle in hazardous environments.

Storage Space: The vehicle is designed with ample storage space for rescue tools, protective gear, oxygen tanks, and other equipment.

Customized Design: Different types of fire trucks are custom-designed based on their specific functions, such as fire trucks in high-altitude areas that may require special engine configurations, or urban fire trucks that may prioritize maneuverability.

Environmental Requirements: Modern fire truck designs also consider environmental requirements, such as reducing emissions and using eco-friendly materials.

Product Application of Fire Truck :

The use of cement pump trucks reflects the development direction of modern construction projects that pursue high efficiency, energy saving, environmental protection, and safety, and is of great significance to improving the overall construction level of the construction industry.

Efficient transportation: The cement pump truck can quickly and efficiently transport concrete to any location on the construction site, greatly improving construction efficiency.

Reduce losses: The pump truck reduces the leakage and waste of concrete during the transportation process. Compared with traditional transportation methods, it can better ensure the saving of materials.

Product Features of Fire Truck:

Product Name	Fire Truck 6X4 8X4
Wheelbase	3800mm
Vehicle Curb Weight	5130kg
Water Tank Capacity	7Curb(L)
Fire Monitor/Pump Model	Type 30 Fire Water Monitor
Water Diversion Method	Circulating Water Diversion
Installation	Rear Mounted
Colour	As customer's request
Chassis Weights	11995kg
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
