

240-470 Horsepower Concrete Pump Truck For Smooth And Precise Concrete Pouring

Our Product Introduction

Basic Information

- Place of Origin: China, HeNan
- Model Number: Pump truck
- Minimum Order Quantity: 1
- Price: 110,000.00/units = 1 unit
- Delivery Time: 10-20 work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥100 units

Product Specification

- Driving Type: 6X4/8X4
- Condition: New
- Model: P360
- Drive Type: Left Hand Drive
- Capacity: 3000l 4000l 5000l Fire Truck
- Tank Volume: 6-8cbm
- Vehicle Curb Weight: 5130(kg)
- Wheelbase: 3950/4500mm
- Water Tank Capacity: 4500Liters
- Tank Material: Q235 Carbon Steel
- Gross Vehicle Weight: 6,510kg
- Water Flow: 20(L/s)
- Highlight: **Precise Concrete Pouring Pump Truck,
470 Horsepower Concrete Pump Truck,
Smooth Concrete Pouring Pump Truck**

Product Description

There are new trucks and used trucks. Please tell us the specific information about the items you are transporting, and we will recommend the one that best suits you. A good truck will help you get the job done smoothly.

Product Description of Concrete Pump Truck:

High Degree of Automation: The operation of modern pump trucks is increasingly automated, with many functions such as extending the boom and adjusting the pumping speed able to be completed automatically by a computer control system, reducing the need for manual operation.

Stable Operating System: Pump trucks are typically equipped with a stable and reliable operating system that maintains consistent pumping performance in various complex environments.

Energy Efficiency and Environmental Protection: The design of pump trucks considers energy efficiency and environmental protection, such as using an efficient hydraulic system to reduce energy consumption and employing a closed hopper design to minimize concrete leakage and dust.

Intelligent Operation Interface: High-end pump trucks are equipped with touchscreens or LCD displays that provide an intuitive graphical interface, making operation simpler and providing more timely information feedback.

Product Application of Concrete Pump Truck :

The vehicle is equipped with a remote control operation function that can accurately position it in complex environments.

Incorporates safety features such as emergency shutdown mechanisms and stability monitoring systems.

Dedicated to serving urban and rural infrastructure, it is an enterprise specializing in the production of large-scale construction engineering machinery and equipment, integrating scientific research, production, sales and after-sales service.

Capable of maintaining continuous flow, which minimizes interruptions during pours.

The vehicles are designed for use in a variety of construction sectors, including commercial, residential and civil engineering.

Product Features of Concrete Pump Truck:

Product Name	Concrete Pump Truck 4X2/6X4/8X4
Wheelbase	1950+4650+1350 mm
Engine Model	WEICHAI/Commins
Horsepower	240-470 horsepower
Vehicle Quality	18000-47000kg
Bridge Number	4
Tyre	11.00R20,12.00R20,12R22.5,295/80R22.5,315
Colour	As customer's request
MAX pumping Capacity	180m ³
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.

FAQ

1.Q: What kind of payment do you accept?

A: We accept T/T; L/C and Western Union; Others payment is negotiable.

2.Q: What's your minimum order quantity?

A: One unit

3.Q: What's your delivery time?

A: Determine according to the specific model. Dump truck usually 30 days after received the deposit.

4.Q: What's warranty time?

A: 30,000 km or 12 months from the date of shipment whichever comes first

5.Q: What's your after-sale service?

A: We provide technical support for our trucks and whole life parts supply
