

Large-Capacity Water Tank Equipped Fire Truck For Effective Firefighting Operations

Our Product Introduction

Basic Information

- Place of Origin: China, Henan
- Model Number: Fire Truck
- Minimum Order Quantity: 1
- Price: \$38,000.00/units ≥ 1 units
- Delivery Time: 10-20 work days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: ≥ 100 units

Product Specification

- Color: Red
- Drive Mode: 6x4 8x4
- Drive Type: Left Hand Drive OR LHD
- Range: Water ≥ 55 (m)
- Equipment Storage: Multiple Compartments
- Emission Standard: Euro3-euro6
- Weight: 8400kg
- Engine Type: Diesel
- Highlight: **Effective Firefighting Operations Fire Truck,
Large Capacity Water Tank Fire Truck**

Product Description

Product Description of Fire Truck:

Fire Hose: Fire trucks are equipped with hoses for close-range firefighting.

Foam Firefighting System: Some fire trucks are equipped with foam firefighting systems, suitable for oil fire extinguishing.

Dry Powder Firefighting System: Some fire trucks are equipped with dry powder systems for electrical fires and others.

Aerial Rescue Function: Some fire trucks are equipped with aerial rescue equipment, such as ladders or elevating platforms.

Firefighting Equipment: Fire trucks carry a variety of firefighting tools, such as axes, hooks, and ladders.

Fire Extinguishing Agent Storage: Fire trucks have storage compartments for foam, dry powder, and other extinguishing agents.

Cab Protection: The cab of a fire truck is designed to be fireproof and crash-resistant for the driver's safety.

Communication Devices: Fire trucks are equipped with communication devices to maintain contact with the command center and rescue personnel.

Product Application of Fire Truck :

The use of cement pump trucks reflects the development direction of modern construction projects that pursue high efficiency, energy saving, environmental protection, and safety, and is of great significance to improving the overall construction level of the construction industry.

Efficient transportation: The cement pump truck can quickly and efficiently transport concrete to any location on the construction site, greatly improving construction efficiency.

Reduce losses: The pump truck reduces the leakage and waste of concrete during the transportation process. Compared with traditional transportation methods, it can better ensure the saving of materials.

Product Features of Fire Truck:

Product Name	Fire Truck 6X4 8X4
Wheelbase	3800mm
Vehicle Curb Weight	5130kg
Water Tank Capacity	7Curb(L)
Fire Monitor/Pump Model	Type 30 Fire Water Monitor
Water Diversion Method	Circulating Water Diversion
Installation	Rear Mounted
Colour	As customer's request
Chassis Weights	11995kg
Provide After-sales Service	Video technical support, online support

▲ The values in the configuration table are subjected to change. The data in the configuration table are for reference only. Mix and matching some configurations may not be technically possible, please contact your local sales representative to help you choose the right specifications for your needs.
